

ABHAY BENDURE

DESIGN ENGINEER

Mechanical Design Engineer with hands-on expertise in 2D drafting and 3D modeling using AutoCAD and SolidWorks. Proven experience in developing manufacturing drawings, BOMs, and production-ready designs for industrial and power sector applications. Adept in GD&T, sheet metal design, and design optimization, ensuring accuracy, cost efficiency, and seamless coordination with cross-functional teams to deliver high-quality engineering solutions within project timelines.

EXPERIENCE

Project Assistant & Design Engineer

Goel Powers Engineers | Andheri | Jul, 25 - Present

- Supported engineering team in design and drafting of power equipment
- Prepared technical drawings, BOQs, and project documentation
- Maintained proper documentation and revision tracking system
- Coordinated with site and execution team for technical clarifications
- Ensured timely submission of design deliverables

Design Engineer

Saptasaji Industries Pvt. Ltd. | Moshi | Jul, 24 - Jun, 25

- Developed detailed 3D models and 2D drawings for industrial components
- Generated production-ready drawings aligned with manufacturing standards
- Improved design accuracy by minimizing rework and dimensional errors
- Assisted in cost optimization through design modifications

KEY HIGHLIGHTS

- Designed 50+ mechanical components using AutoCad
- Prepared 100+ fabrication drawings with zero major production errors
- Reduced drawing revision time by 20% through structured documentation
- Coordinated with production & quality teams for faster project execution
- Delivered projects within tight deadlines

EDUCATIONS

Diploma Passed with 60% (B.F.A., Visual Arts)

Govt. Polytechnic Awasari - Ambegaon, Pune

SSC Passed with 81% (B.F.A., Visual Arts)

Mahatma Gandhi Vidyalaya - Khed, Pune

CORE COMPETENCIES

- ◆ Mechanical Design & Engineering
 - 2D Drafting & Detailing
 - 3D Modeling & Assemblies
 - Sheet Metal Design
 - GD&T Application
 - Design for Manufacturing (DFM)
- ◆ CAD & Software Proficiency
 - AutoCAD
 - SolidWorks
 - CATIA
 - Revit (Intermediate)
- ◆ Documentation & Project Support
 - BOM Preparation
 - Manufacturing Drawings
 - Revision Control
 - Engineering Change Management
 - Production & QA Coordination
